## MIDDLEBURG.

Jason Wesley went to Somerest last Tuesday.

F. B. Lucas is getting out a fine lot of staves and heading for Sharp & Co.

Miss Anna Godbev has gone to Bethel Ridge to remain until about April 1.

George Lucas is looking very suspicious. There may be a few excursion trips to Tennessee in the Spring.

Dr. Wesley has been kept busy for several days vaccinating citizens of this community. Four new cases of smallpox are reported at Mt. Salem.

Mrs. Bettie A. Frederick died Monday. The funeral was preached by Rev. J. B. Ferrell at the Baptist church Tuesday afternoon. Interment took place at the cemetery on the hill. She leaves four boys and one girl.

For several days Miss Miss Swope, of North Middleburg, has been chanting "Absence Makes the Heart Grow Fonder." We don't know whether it is the absence of her rival or not that makes the heart grow fonder. Would like for her to explain.

In a letter to his brother, Albert Keeney states that he left the hospital on the 1st, after a third operation. He has been in a very critical condition but will go to work soon for the California Wine Association. We are glad to know Ab is out again.

Uncle Jim Wheeler, of North Middleburg, and Mrs. Bastin went to Liberty Wednesday and were married. The groom is about 85 and the bride is probably 45. We see wherein Uncle Jimmy is wise to select a partner to cheer him through the evening of life and hold his trembling hand as he passes down the rugged hill of time. Much joy.

The writer passed through the noted old town of Yosemite Tuesday. All that now remains of the once bustling terminus of the G. O. P. railroad are a few good dwellings, three stores, a score or more of dilapidated buildings, a part of the old bridge, several pools of water and an immense number of frogs. Dearly would be the time were it not for these voices from the pool, which make the night melodious with their shrill music and continual hurrahs for Bob Breckinridge. Yosemite rose, flourished and waned, and now on what was once the crowded business square may be seen growing black eyed peas, potatoes and other garden products in their season. But kind reader, bear in mind that among our citizens may be found a number of loyal, brave and true democrats. Notably among them are the ever jovial J. H. McWhorter and son, W. E., Uncle Bill Tom Royalty, Jacob Dorn, J. K. Coffay, General Sweeney and others.

"What made your nose so red?" asked the woman in the wayside cottage. "Cocktails, mum," responded Rummy Robinson.

"And you have the face to admit that you drink?"

"Oh, no, mum. You see, I was riding in a car that was filled with chicken coops on a rooster's tail scratched me nose while I slept."

Another of the "poverty stricken" old women who have been selling papers in the City Hall Park, New York, Mrs. Bertha Kraft, is dead. In her rooms were found bank books showing \$6,000 on deposit.

## ONE STEP MORE

Will be fatal to the sleep-walker. Will he draw back or will he take the final, fatal step? A great many people are in peril like the sleep-walker. They are diseased. The disease is progressing day by day. The time comes when one more step away from health is fatal. The man who has suffered from indigestion or gastric trouble

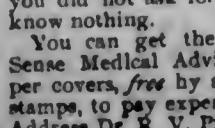

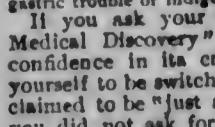

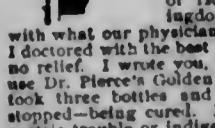

goes some night to a dinner and returns home to find he has taken that last step from health which can never be taken back.

To neglect the cure of indigestion or some other form of stomach trouble is dangerous. It is also inexcusable. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It purifies the blood, stimulates the liver, cures biliousness, and eliminates bilious poisons from the system.

"The price I would like to give your 'Golden Medical Discovery' I cannot utter in words or describe with pen," writes Jas. B. Ambrose, Esq., 1139 W. Main St., Louisville, Ky. "I take it makes what our physicians sold was indigestion. I doctored with the best around here and found no relief. I wrote you, and you advised me to use Dr. Pierce's Golden Medical Discovery. I took three bottles and felt no good, but I stopped being cured. I have no symptoms of gastric trouble or indigestion now."

If you ask your dealer for "Golden Medical Discovery" because you have confidence in its cure, do not allow yourself to be switched off to a medicine claimed to be "just as good," but which you did not ask for and of which you know nothing.

You can get the People's Common Sense Medical Adviser, 1008 pages, per covers, free by sending 25 one-cent stamps, to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

Mr. and Mrs. Rice's little boy, aged seven years, died of diphtheria near here Monday and the remains will be taken to Carlisle to day for interment. Mr. and Mrs. Allison, of Carlisle, the former an uncle of the dead boy, arrived here Tuesday. Robin Rigney has accepted a lucrative position as lumber inspector at Monticello and will move his family to Wayne county. He is a good man and has a good family and we commend them to the good people of Wayne.

Monday was something of a moving day here, six families having moved and removed. Wm. Trusty has moved to the Pleasant Point section. Sebastian Chevallette and family to their home place again. The house vacated by the latter will be occupied by Perry Bryant and family who have moved back from Burnside. Chas. Trusty has moved to Kingville and various other changes and removals are taking place.

Owing to the protests of ministers in Lexington the contracts of all the men who had been engaged to play on the Lexington team of the Sunday Baseball League have been canceled and the club disbanded.

For Circuit Judge.

M. C. SAUFLEY

For Commonwealth's Attorney.

JOHN SAM OWSLEY, JR.

**THE result of the special session of the Senate is very gratifying to the democratic members of that body. For the first time within four years the democrats of the Senate are organized, united and in fine fettle for future battles with their republican foes. Every body gives Senator Gorman the credit of securing these splendid results. In a quiet, unobtrusive way he has obtained a firm grasp of the party machinery in the Senate and has used it successfully in bringing about a situation that will put the tariff and trust questions prominently before Congress in the coming winter and make them the leading issues in the presidential campaign next year. Gorman's fine work in reorganizing the party in the Senate is much appreciated by the democratic Senators that at this time he is being boomed energetically by his colleagues for the democratic chairmanship to succeed ex-Senator Jones, who has not proven a glittering success.**

**MR. HENRY M. BOSWORTH, who made Fayette the best Sheriff that county ever had and who is a democrat of the old school, announces his candidacy for State treasurer in this issue. There is no doubt about his fitness for the office he seeks and if he is successful in his race he will add much strength to the ticket this fall. Mr. Bosworth was the officer who arrested Caleb Powers when he was fleeing from justice and while he was sheriff he made many other arrests almost as important. Mr. Bosworth is very strong in his district and has a big following all over the State.**

**THE friends of Gen. Basil Duke are urging him to write another history of Morgan's famous cavalry. A number of years ago he published a history of it, but it has long been out of print and calls are being made for another. The general is considering the matter and if he undertakes another history, it will be an elaboration of his former effort.**

**A WEST Virginia Judge has decided that a Negro's head is "a dangerous and deadly weapon," and that when a Negro starts to butt you, you can use any kind of weapon to defend yourself. That judge has evidently been there. The average Negro's head can do more damage than a battering ram.**

**THE birth of his ninth son and his 21st child places Representative Roberts, of Ford county, Texas, in a position to ask any favor he may desire of President Roosevelt, whose partiality for big families seems to be exerting a highly auspicious influence on the census.**

**WHEN Congress began its sham legislation against the trusts there were in the neighborhood of 700 in existence. Now, according to a complete census, there are 793. Congress may pull the wool over the people's eyes, but it can't fool the trust makers.**

**THE Mt. Vernon Signal is now a seven column paper and besides its increased size other noticeable improvements have been made. We congratulate Brer Albright on the success he is having with his excellent publication.**

**NO more boulders will find safety in Mexico. The treaty making bribery an extraditable offense has passed the Senate. The extra session would have been worth while, even if it had accomplished no more than this.**

**THE Somerset Journal has entered on its fifth year and here's hoping that it will live to be a centenarian.**

**There was a general fight on the floor of the Missouri House of Representatives yesterday. It originated in a charge made by Speaker Whitecotton that boodle was being used to defeat the School Text Book Bill. The door keeper and an unruly member started a fistfight which became general.**

The following is sent out from Mt. Sterling: No intimation is given out by Chairman Young when the committee will be called to settle the 13th judicial district muddle, but speculation is rife that the day will not be fixed until after May 9. Some of the committee men are urging the chairman to delay the call, and it is likely their wishes will be regarded.

It is announced that after the Cuban reciprocity treaty has been ratified Germany will ask for equal privileges from both the United States and Cuba. That these privileges will be granted, Germany does not expect, but desires to make her position clear so that the United States will have no ground for complaint when Germany gives other nations preferential treatment.

### SEVERE ATTACK OF GRIP

Cured By One Bottle Of Chamberlain's Cough Remedy.

"When I had an attack of grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, editor of the Enterprise, Shortsville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it mildly. I had no idea that it would or could knock out the grip, simply because I had never tried it for such purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only be of less duration, but the pains were far less severe and I had not used the contents of one bottle before my grip bid me adieu." For sale by Craig & Hocker.

"You don't cook like Mary, my first wife, used to do, Alice," he said, in tones of gentle, exasperating reproof. "No, it seems to me you can't cook like she used to."

On another occasion he remarked:

"You are not so smart in getting about as Mary was. You don't appear to catch on where she left off."

About this time a heavy rolling pin came in contact with his head.

"What do you mean by that, you—" he exclaimed in agony.

"I am doing the work that Mary neglected," she replied.

There was more peace in that family afterward.—Exchange.

### Wakeful Children.

For a long time the two-year-old child of P. L. McPherson, 59 N. 10th St., Harrisburg, Pa., would sleep but two or three hours in the early part of the night which made it very hard for her parents. Her mother concluded that the child had stomach trouble, and gave her half of one of Chamberlain's Stomach and Liver Tablets, which quieted her stomach and she slept the whole night through. Two boxes of these Tablets have effected a permanent cure and she is now well and strong.

THE friends of Gen. Basil Duke are urging him to write another history of Morgan's famous cavalry. A number of years ago he published a history of it, but it has long been out of print and calls are being made for another. The general is considering the matter and if he undertakes another history, it will be an elaboration of his former effort.

tleman the other day relative to the extension coming through Lincoln county. He stated that since the right-of-way had been granted by Boyle, there would be no doubt about our get-  
ting the road. He says the line will be extended from Danville and that by Stanford is far the most feasible route of those in question. He left Mrs. Sauls under the impression that dirt would be broken in this county before the year is out. Let us hope that there will be no hitch in the matter and do all in our power to make the road a certainty.

lan Cooper, of Linn Creek, died at the Candler Hotel, and his remains were taken to the family cemetery for interment. He was about 35 years of age, a prosperous farmer and merchant, son of the late James Cooper—Somerset Journal.

AN idea of the carelessness, or rather cussedness, of some postmasters may be had from the following. In September of last year, Mr. S. P. Gooch ordered his paper changed from Waynesburg to Annadale, Tenn., but our types got it "Annaville" on the mailing list. Of course Mr. Gooch did not get his paper but we did not know of his failure to re-cieve it until last week. In the mean time the careless postmaster at Annadale let the papers accumulate there rather than let us know that they were not called for, notwithstanding the gov-  
ernment furnishes blanks to notify publishers in such cases. If all postmas-  
ters handled mails with the care and precision that Stanford's postmaster does, the newspaper men would hear far fewer kicks from their subscribers and the newspaper business would be several times more pleasant than it is.

THE community around Mt. Salem has been robbed by, death from that dread disease, small-pox, which is now prevailing in that neighborhood, of a most excellent citizen, Mr. Terry Mobley. He was a man who commanded respect and invited friendship. A man of integrity, of quiet, modest demean-  
or, whose desire was to live, and he did so, in accordance with the Golden Rule: "Do unto others as you wish to be done by." He was born in Nelson county and would have been 27 years of age had he lived to June 12th, next. Not a communicant, yet his respect for religion was shown by his regular at-tendance at church and his contribu-tions to its maintenance. He died pro-fessing faith in the God who made him. Mr. Mobley's home life was beautiful. He was a kind father and a devoted husband, always studious of the well-being of his wife and child, who now survive him. He will be missed by all who knew him.

NO GOOD LUCK IN HORSE SHOES—If any one tells you there's good luck in having a horse shoe over the door, please tell him that the editor of The Record says it's all out of the whole cloth.

Desiring to increase office receipts from the usual sum of 30 cents a week, we found and nailed over the door a large horse shoe weighing a pound or more. That day we collected 75 cents, but the customer in his rush to get out, broke the door knob. In trying to fix it we shook the wall too much and down came Mr. Horseshoe on the top of our defenseless head, so in less than a minute a knot as large as a goose egg stood out to mark the spot where "good luck" had struck. The man who advised us about the shoe may have some more good luck coming to him, but it will not be through any prayer of ours.—Central Record
